# SAP Solution Map

## SAP Leads Enterprise Software Market Worldwide

### SAP Ranks #1 Worldwide in CRM, ERP and SCM Markets according to Latest reports from Industry Research Firm

SAP is a global leader in ERP followed by all other vendors. SAP integrates all Business processing and IT systems of an enterprise into one system, and hence greatly enhances the productivity of an organization. Though implementing SAP is a costly affair for any organization, but it's long term benefits outweigh investments involved in implementing it. In India, SAP controls a market share of about 57% in ERP. Most of the big companies in India have implemented or are in the process of implementing SAP ERP and SAP also targeting small and medium size enterprises in India and else where hence more jobs will be coming in future. According to recent reports, globally there would be a shortage of 40,000 SAP professionals.
